If you wake up in the morning with a bitter or bad taste in your mouth, Languor, Dull Headache, Despondency, Constipation, take Simmons Liver Regulator. It corrects the bilious stomach, sweetens the breath and cleanses the furred tongue. Children as well as adults sometimes eat something that does not digest well, producing Sour Stomach, Heartburn, Restlessness, or Sleeplessness—a good dose of Regulator will give relief. So perfectly harmless is this remedy that it can be taken by the youngest infant or the most delicate person without injury, no matter what the condition of the system may be. It can do no harm if it does no good, but its reputation for 40 years proves it never fails in doing good. ...

& THE present session of congress is a NEWS coming back at them hard, and pointed with a silver tip.

Ir Clevelan I had one half the finan cial backbone that he has of tariff re form gristle the Democratic platform would not be a dead letter.

Two New York women have petitioned Gov. Flower for permission to wear men's clothes. Their names have not been made public, but one is supposed to be Bourke Cochran and

the other Aunty Snapper. THE effort to affix to Mark Smith the odium of having placed the gold clause in the funding act of this territory will fall flat, as the facts are plain to any one who will take the pains to investigate that Mr. Smith only followed out an act of the legislature. Those who are jealous of Mr. Smith's success in the political arena can not hurt him with the attempt to again fire off the exploded bombs of the last campaign. The Third Party advocates are in this business now, but they can

only hurt their cause by misrepresentation.

Arizona Mistor: The names of the subdivisions of

Arizona's land and water are extremely aboriginal. The Apache Indians who have been for many years the most prominent citizens of the territory, saved the cow boys the trouble of naming the cross reads and buckboard stations.

When it become the duty of white felks to name a town or village they named it after the most prominent to the county in which this paper is published. He was a very prominent citizen up to the time of his death. twenty-five miles per hour. The spar-row hawk files six times as far, or one from Boston, Chicago and St. Louis as He killed men, women and children from Boston, Chicage and St. Louis as fast as they lit, without even arresting them or giving them a trial.

This is the chief who named his son "Geronimo" after a Chicago girl whom he had captured alive. When Geronimo grew up he was called "Big Foot" which is the English of it. When he was old enough to wear a "G'string he started out on his own book. He named a number of rivers and harbors in this territory. He stopped a stage on the up grade one day and put two heads on the driver before scalping him. He named the place Dos Cabezas, which means, Two Heade."

At another point he made close connections with a number of families about to cettle down for life. This was the first time cremation had been successfully tried, and the place was named Phonix by the only one who

while sailing down a stream a short

time afterward his boat was upset. He lost everything but his life. He named the river Santa Cruz and his landing point Tueson after his two wives whe were drowned. Tombstone is the only camp that

he did not name, and that is why it bears a name that does not need interpreting.

Geronimo became so prominent that the attention of the Great Father at Washington was called to his ability. He was engaged with his troupe to reconstruct the south and is teaching Sunday school now in Florida.

An Arizona editor printed a story that Geronimo was sincere in his Christian endeavors and never killed a white man. This so enraged Cochise terday. "No compromise" was adopted that he sought the author of the infringement upon his son's character-The editor added him to his collection which caused the introduction into our territory of military posts for the protection of Indians.

Pailed to Pass. The following resolution was introtermines that the United States has ing of the town council, but failed to no exclusive right to Behring Sea as a pass owing to the tightness of the

money market: Whereas it has been reported that this body is in cahoots with the sal-vation army to protect said army from

blackmailing tenderfeet; Therefore, be it resolved that hereof the American product, or the after all conferences between the Bland-Allison bill providing for the members of the salvation army and purchase of \$3,500,000 of silver will dows and that an assessment of two probably pass. The silver men are bits eath be levied on the members jubilant while the anti-silver men are of this council to defray the expense of putting a lock on the door.
